About the job

Base.vn is a B2B SaaS (Software-as-a-Service) Company providing technology management solutions for SMEs enterprises.

Base will bring to your business the smartest, most modern technology products, based on three main components: Data & Artificial Intelligence (Data & AI), Interaction (Interaction), and Platform platform (Open Platform). And imagination knows no bounds: With whatever application you have or need, Base can help you integrate into a common platform. With a strong belief in young Vietnamese engineers, we are looking for talented **Software Engineer** for the Platform Team to pursue Base's mission together: Build great enterprise software for Asia.

What you do

From the beginning, you will be guided by Senior Engineer or Team Lead to:

- Understand the products we're passionately building and know what to improve yourself to build them better in the future
- Understand and respect all the working principles
- Efficiently work with all the materials
- Get your very first products - "Starter Project" done, reviewed, and improved

Then, you will join a **full-cycle** build up apps/features in our platform:

- Analyze product & Planning
- Design Database
- Develop & Test
- Demo & Launch
- Maintain & Update new features

Who you are

We're looking for talented Fresher Engineers to join our team with below traits:

- Final-year student or graduates with major in IT and related fields (≤ 2 years of work experience)
- Good background knowledge in Algorithms & Data Structures
- Strong knowledge or experience in using any programming language (prefer PHP/Javascript)
- Passion for coding and desire to build valuable products
- Logical thinking and good problem-solving skills
- Willingness to learn and address big challenges

What you can get

Special Benefits:

- Attractive salary package up to 1200\$ plus bonus based on performance
- Flexible evaluation of salary increase (1-2 times/year) commensurate with work results
- High performance computer and screen
- Team building and other engagement activities
- Other benefits as prescribed by the Labor Law

Personal Development

- **Fast-track career:** Join a full cycle of building real products for Asia market and continuously grow with the scalability of products.
- **Unlimited learning opportunities:** Enhance your expertise through a comprehensive training program, guidelines from mentors, buddies, and product development challenges.
- **Visible values & impacts:** Build world-class and high-performance products that solve pain points for millions of enterprises.
- **Talented colleagues:** Work with a team of enthusiastic and professional Product Builders who have already built a highly large-scale system serving 60+ millions of pageviews, hundreds of thousands users each month, and 10,000+ enterprises; and graduated from top universities in Vietnam & the world (Stanford, UCLA, HUST, etc.).

Get ready to be our Software Engineer!

- **Round 1:** CV Application
- **Round 2:** Interview

Address Office: 16th floor, HUD Building, 37 Le Van Luong, Thanh Xuan, Hanoi.
